SATELLITE L50-A

Toshiba recommends Windows 8.

HIGHLY ENTERTAINING

Movie buff, social networker, web surfer, instant messenger or photographer. Whoever you are, you will always be highly entertained by a Satellite L50-A laptop. While the latest Intel or AMD processors* deliver a smooth, speedy experience, the latest AMD or NVIDIA® graphics* will bring you a better graphics experience, wherever you go. And with NVIDIA® Optimus™ technology* to optimise your laptop, you're all set to be entertained. So your movies, games and web pages are always right there, when you need them. All with the rich depth of Onkyo speakers with DTS Studio Sound™ audio enhancement and a stunning picture definition on the 15.6" HD widescreen display. Some models also feature a 10-point touchscreen*, making it really easy to access your documents and web pages. It looks the part too. Slim and stylish, the Satellite L50-A has an elegant glossy finish and comes in a choice of three modern colours. Some models also feature low power consumption processors* in a thinner, lighter design. Whatever your choice, you will want to take it everywhere. And you can. With a range of multimedia features and ports to connect you to your world, the high-value Satellite L50-A keeps you entertained.

*availability may vary by model and country, touchscreen only available on Satellite L50t models

TEG_EN_Sat_L50-A_DataS_2013. Microsoft, Windows and Windows 8.1 are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices and system component/options availability are all subject to change without notice. Product design specifications and colours are subject to change without notice and may vary from those shown. Errors and omissions excepted.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: www.computers.toshiba-europe.com and/or contact Toshiba Technical Support. - Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. - Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. - For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. - For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. - One GB means one billion bytes, accessible capacity may be less. - Wired and wireless communication capabilities to be applied in countries where approved. - Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at www.computers.toshiba-europe.com. - Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. - Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. - Please check your system specifications to ensure optimal results. - Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. - Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
